AN ARCHITECTURAL DESIGN RESOURCE

from the publishers of *Metal Roofing Magazine*

ATAS International

"I selected an ATAS Juan Roof for the project because of its longevity and appearance: crisp lines, disciplined textures, polychrome flexibility. In installation I found that the manufacturer's accessories and fittings coordinated properly with the panel profile, providing for expeditious installation and well thought-out system displaying both functional and aesthetic appeal."

Donald L. Strange-Roston, AIA, PE

project: restaurant

KAN PAI RESTAURANT, RICHMOND, VA.

PRODUCT: ATAS International Scan Roof (14,189 square feet)

FINISH: PVDF in Hartford Green, Rawhide and Coppertone

MATERIAL: 24-gauge steel

INSTALLER: Boh-Air Exteriors, Richmond, Va.

DISTRIBUTOR: ABC Supply, Richmond, Va.

ARCHITECT: Strange-Boston Associates, Richmond, Va.

ATAS International's Scan roof allowed for an easy installation, despite the multiple colors used in the roofing layout.
